

L'ALUFACTURE

REGULA : TAILOR-MADE AT YOUR SERVICE

The Regula system bases its rigidity on a mechanical assembly by screwing. By declining this principle of perpendicularity between vertical and horizontal parts, **the system adapts to all your desires.**

Freestanding furniture, wall structure or room divider up to the ceiling : **you have carte blanche** to design the structure adapted to your needs, and make Regula a unique piece of furniture.

L'Alufecture accompanies you in the design of your project : contact us !
